Last Updated Monday, 03 June 2013

Next Workshops given by the CIF: Tuesdays between 12:15 and 14:00.

These workshops are intended for max 15 pers. Registration (free) is recommended (mail to Jean-Yves Chatton).

The students of the doctoral schools (neuroscience, FBM, etc.) can validate their participation to a workshop as one seminar for their credits.

On another topic, Jean-Yves Chatton's series of courses entitled

"Introduction to Fluorescence Imaging for the Analysis of Living Cells"

has also been given a schedule. Please take note of the dates in the 2014 winter semester, and head to the following link for the detailed program :
