CIF SEMINAR

Sample clearing technologies and deep tissue imaging with the UltraMicroscope 2 light sheet microscope :

Whole organ imaging with cellular resolution

by

Dr. Christian Feuillet

LaVision Biotec application scientist, Bielefeld, Germany

Tuesday February 10, 2015 - 12:15 PM

Room B301 (Epalinges UNIL Site, Building B)

The seminar by Dr. Christian Feuillet will cover major approaches of tissue clearing and imaging of large transparent tissue samples using light sheet microscopy. This type of technology has recently been installed at CIF Epalinges and is accessible to CIF users.

Access map: http://www.unil.ch/acces/page36435_en.html

For information on the seminar or on the Ultramicroscope light sheet microscope at CIF, please contact Florence Morgenthaler, CIF Epalinges Technical Manager (florence.morgenthaler@unil.ch; tel. 021-692-5891).

*** UPDATE ***

Room changed from B305 to B301
