

Request - Listing of publications made using the CIF resources

Contributed by Yannick KREMPP
Thursday, 19 February 2009

Dear Users of the CIF platform,

We are currently preparing the annual report 2008 for the CIF platform. I would need your collaboration in order to elaborate a listing of all publications of the year 2008 for which a part of the work has been performed using the CIF resources or have required the help of the CIF staff. This information is very important to evaluate the impact of the platform on the scientific production of our Faculty.

I would very much appreciate if you could send me the information related to your work until Friday March 13, 2009.

With best regards.

Jean-Yves Chatton
