

Power cut planned between Thursday 14th and Friday 15th

Contributed by Yannick KREMPP
Tuesday, 12 January 2010

The whole DBCM building will suffer a power cut (very) early friday morning.

To protect the CIF servers, gently hosted at the DBCM, we will have to turn them off Thursday evening after 5:00 PM.

Logon on microscopes, data access, and even the website will be down. This concerns every CIF users, not only the DBCM / Bugnon users.

All these computers should be back online around 8:00 AM Friday morning.

Sorry for the inconvenience.

The CIF Staff.
