Last Updated Tuesday, 08 February 2011

People interested in learning about new opportunities for 2-photon microscopy at CIF are invited to attend the following

CIF special
workshop

“Two-photon microscopy

and

new technological developments at CIF”

Wednesday,
February 9th 2011 at 12:15 pm

in the “Petit Auditoire de l’Ecole de Médecine”

Department of
Cellular Biology and Morphology

University of Lausanne

Rue du Bugnon
9, 1005 Lausanne

We will review the existing technology and present our new custom-made live imaging 2-photon microscope ([link](#)).

We will also discuss future developments of optical imaging technologies that we plan to make accessible to the FBM community. People interested in these new perspectives of the CIF activities will be welcome to make suggestions and express their needs. From these discussions, the CIF and the FBM will evaluate what type of technological developments to undertake for the benefit of CIF users. No registration is needed.

The CIF development team.
